Louis Nardavac – RKP Trains

GWR HST Farewell Scenario Pack

Manual

INTRODUCTION

Thank you for downloading this Scenario Pack for Train Simulator 2020. This pack contains 6 activities recreating some typical services of the HSTs on the Great Western Railways network. Three of these activities are split in two parts, forming a total of 9 scenarios. These activities are made of six long-distance journeys between London, Penzance, Swansea and Paignton. Each activities is situated at a different time period, retracing the last 25 years of HST services on the network, with the oldest one taking place in 1994 while the most modern one takes place at the beginning of the GWR new era. The three different engine types used by HSTs during their lifetime are used here : Valenta, VP185 and MTU.

These activities have been realised with a very particular attention to details, and are made according to the real timetables of the British network, oftently changed to match the history. However, it is possible that despite all our researches, some elements appear as incorrect regarding the reality, and we would like to apologise for this. Scenarios creation is a very time consuming activity, but we are very proud to give you here about 25 hours of driving on a total of 2,400 kilometers of rail journeys with no less than 425 programmed AI services!

In order to give you the most realistic possible experience, this pack requires a large number of dependencies that are listed in each activity description. Please have a look at that before trying to launch any scenario or you will encounter technical issues.

INSTALLATION INSTRUCTIONS

To install these activities, simply drop the **Content** folder into your **Railworks** folder.

For the two scenarios taking place on **South Wales Coastal : Bristol – Swansea**, it will be necessary to unzip the .ap folder of the route :

=> Go to **Railworks\Content\Routes\00000068-0000-0000-0000-000000002016**

=> Find the **.ap** folder of the route and make a backup elsewhere.

=> Renammed the extension in **.zip** and then unzip it.

=> Drop the content of the extracted folder into the route folder, then delete the .zip file.

Notes

Dependencies : In the dependencies list, the ² sign after some items indicates that the scenario could be launched if you do not own the add-on.

Adaptation : Some pieces of rolling stock being unavailable for Train Simulator 2020, we had to make some adaptations and replace it with other realistic equivalents :

- Class 180 have been replaced by HST.
- Class 322 have been replaced by Class 360 and/or 166.

Virgin Trains First Generation Pack : Some scenarios use the Class 47 and according coaches from the Virgin Trains First Generation Pack of DTG. This pack has been withdrawn on 6 December 2019 following the end of Virgin Trains franchise. If you do not own this item and would like to use the concerned scenarios, please ensure that you have swapped those items using RW_Tools. If many people ask for, we could think about including a non-Virgin Trains version of this scenario pack. Do not hesitate to make us know by e-mail or by Messenger.

The following pages will now detail each activity of the pack and the related dependencies.

(RKP HST FP) All aboard to Penzance

Track Covered : London Paddington – Penzance

Service : 1C04 0730 London Paddington to Penzance

Rolling Stock : Class 43 HST 'Great Western' – Valenta (43165 + 43028)

Number of Scenarios : 2 (London – Newton Abbot + Newton Abbot – Penzance)

Total Duration : 5h45

Date : Friday 24 October 1997

Number of AI Trains : 94

Dependencies :

AP Class 43 (Valenta EP)

AP Class 158/159 Cummins EP

AP Class 150/2

AP Mk2D-F Coach Pack

AP JXA/POA Wagon Pack

AP Weather EP²

DTG Class 143 Provincial

DTG Class 159

DTG Class 423 Network South East (Part 1 Only)²

DTG European Loco Assets

DTG Virgin Train Pack

JT Western Mainlines + South Devon Main Line + Cornish Main Line Extensions

JT Class 60

JT Class 153

(RKP HST FP) Gloomy Sunday

Track Covered : Penzance – London Paddington

Service : 1A90 1322 Penzance to London Paddington

Rolling Stock : Class 43 HST 'First Great Western Blue' – MTU (43139 + 43033)

Number of Scenarios : 1

Total Duration : 5h10

Date : Sunday 12 October 2014

Number of AI Trains : 57

Dependencies :

AP Class 43 (MTU EP)

AP Class 158/159 Cummins EP

AP Class 150/2

AP Weather EP²

DTG Class 159

DTG European Loco Assets

DTG GEML - London to Ipswich

DTG Riviera Line

JT Class 153

JT Class 220/221 Voyager

JT Western Mainlines + South Devon Main Line + Cornish Main Line Extensions

UKTS Heathrow Connect Class 360 Reskin

UKTS Heathrow Express Class 360 Reskin

(RKP HST FP) A VP185 to Swansea

Track Covered : London Paddington – Swansea

Service : 1B46 1445 London Paddington to Swansea

Rolling Stock : Class 43 HST 'First Great Western Barbie/White' – VP185 (43165 + 43016)

Number of Scenarios : 2 (London – Bristol Parkway + Bristol Parkway - Swansea)

Total Duration : 3h00

Date : Thursday 14 October 2004

Number of AI Trains : 76

Dependencies :

AP Class 43 (Valenta) EP

AP Class 43 (VP185) EP

AP Class 66 EP

AP Class 158 Perkins EP (Part 2 Only)

AP Class 175 EP

AP Class 142 (Part 2 Only)

AP Class 150/2

AP Weather EP²

DTG Class 66 Freightliner V2.0

DTG Class 159 (Part 2 Only)

DTG Arriva Train Wales DMU Pack (Part 2 Only)

DTG South Wales Coastal - Bristol to Swansea (Part 2 Only)

DTG Portsmouth Direct Line - Waterloo Extension (Part 1 Only)²

DTG European Loco Assets

JT Class 60

JT Class 220/221 Voyager

JT Western Mainlines (Part 1 Only)

(RKP HST FP) From Swansea to Paddington

Track Covered : Swansea – London Paddington

Service : 1L55 1129 Swansea to London Paddington

Rolling Stock : Class 43 HST 'GWR Green' – MTU (43187 + 43188)

Number of Scenarios : 2 (Swansea – Bristol Parkway + Bristol Parkway - London)

Total Duration : 3h00

Date : Friday 25 September 2015

Number of AI Trains : 79

Dependencies :

- AP Class 43 (MTU EP)
- AP Class 66 EP
- AP Class 158/159 Cummins EP
- AP Class 170 EP (Part 1 Only)
- AP Class 175 EP (Part 1 Only)
- AP Class 150/2
- AP BAA Wagon Pack (Part 1 Only)
- AP JPA (Part 2 Only)
- AP JXA/POA (Part 2 Only)
- AP Weather EP²
- DTG Class 59 (Part 2 Only)
- DTG Freightliner Class 66 V2.0
- DTG Class 159
- DTG Class 170 (Part 1 Only)
- DTG Arriva Train Wales DMU Pack (Part 2 Only)
- DTG European Loco Assets
- DTG South Wales Coastal - Bristol to Swansea (Part 2 Only)
- JT Class 60
- JT Class 220/221 Voyager
- JT IWB Cargowaggon (Part 2 Only)
- JT Western Mainlines (Part 2 Only)

(RKP HST FP) Intercity to the Riviera

Track Covered : London Paddington – Paignton

Service : 1C22 1630 London Paddington to Paignton

Rolling Stock : Class 43 HST 'Intercity Swallow' – Valenta (43088 + 43162)

Number of Scenarios : 1

Total Duration : 3h55

Date : Saturday 20 August 1994

Number of AI Trains: 59

Dependencies :

AP Class 43 (Valenta EP)

AP Class 158/159 Cummins EP

AP Class 37

AP Class 142

AP Class 150/2

AP MGR Wagon Pack

AP MkA-C Coach Pack

AP Mk2D-F Coach Pack
